2013 CONSUMER CONFIDENCE REPORT

The CCR is an annual report concerning the quality of water provided to you. A ruling has been passed down by the EPA that it is no longer necessary to mail the CCR to each resident as long as it is posted on the City website or provided by some other electronic means. Making this change will save water systems in Kansas more than \$900,000 annually in costs of postage, not to mention the cost of time in copying and assembly. If you do not have access to the internet, you may request a copy by contacting the City Office.
